RECOMMENDED POSITIONS: SENIOR TECHNICAL PROGRAM MANAGER | PMO & DIGITAL TRANSFORMATION LEADER

PROFESSIONAL SUMMARY

Technical Program and Project Manager with more than 13 years of experience leading technology, infrastructure, and cybersecurity initiatives across government and aviation sectors. I focus on turning strategy into execution by building strong PMO governance, improving delivery visibility, and leading cross-functional teams to deliver complex programs successfully. My background combines hands-on technical knowledge with program leadership aligned with ISO 27001, NCA, COBIT, and PMI practices.

CORE SKILLS

- Technical Program Manager
- PMO Establishment & Governance
- Digital Transformation
- Cybersecurity & Infrastructure Programs
- Portfolio & Risk Management
- Agile & Waterfall Delivery
- Stakeholder & Vendor Management
- Power BI & Executive Reporting

EDUCATION

- **Executive MBA – King Abdulaziz University**
Key Subjects: Project Management, Management of Information systems, Economics, Corporate Finance, and Managerial Accounting
- **B.Sc. Electrical & Computer Engineering – King Abdulaziz University**
Key Subjects: Engineering Design, Electrical Circuits, Electronics, Programming Java, C#, Database, and communication & Network Engineering

EXPERIENCE

IT PROGRAM MANAGER – National Center of Vegetation cover development NCVC | Jan 2024 – Present

- Built an IT-PMO from the ground up using a Build–Operate–Transfer approach, focusing to use the international standards and frameworks.
- Worked closely with executive leadership to drive digital transformation initiatives including GIS and AI programs.
- Introduced portfolio governance practices improving prioritization and decision-making across projects.
- Automated PMO reporting workflows which improved visibility and reduced manual effort significantly.
- Developed Power BI dashboards giving leadership real-time insight into delivery status, risks, and budgets.
- Managed dependencies and risks across multiple strategic programs and projects.
- Supported Business Continuity and Disaster Recovery planning as part of enterprise resilience initiatives.
- Led preparation of SOWs and RFPs and supported vendor evaluation and onboarding.
- Guided project managers on delivery approaches, Agile practices, and risk management.
- Improved overall PMO maturity through standardized governance and lifecycle practices.
- Mentored and coached team members in project management practices, enabling multiple professionals to successfully achieve PMP® certification and strengthening overall team delivery capability.

IT PROJECT MANAGER – Wipro / Riyadh Airports | Mar 2022 – Jan 2024

- Managed infrastructure and cybersecurity projects supporting critical airport operations.
- Led modernization of enterprise networks to improve availability of operational systems.
- Worked with stakeholders to shape technology transformation roadmaps.
- Coordinated engineering, cybersecurity, and vendor teams across complex environments.
- Developed execution plans covering scope, timelines, cost control, and governance.
- Applied structured risk management practices reducing delivery disruptions.
- Supported cybersecurity compliance and regulatory alignment initiatives.
- Delivered infrastructure migrations with zero operational downtime.
- Managed multiple vendors ensuring delivery quality and performance.
- Provided executive-level reporting on program progress, risks, and KPIs.
- Strengthened collaboration between business and technical teams.

IT PROJECT MANAGER / NETWORK SPECIALIST – National Water Company | Feb 2015 – Mar 2022

- Delivered enterprise Data Center and Disaster Recovery programs supporting critical services.
- Defined infrastructure transformation roadmaps improving scalability and reliability.
- Implemented IT/OT network separation enhancing cybersecurity posture.
- Led modernization of network and security platforms across environments.
- Prepared technical strategies and procurement documentation.
- Aligned infrastructure initiatives with business and operational goals.
- Worked with cybersecurity teams to improve governance and compliance readiness.
- Led implementation teams during deployment and commissioning phases.
- Increased system availability while reducing operational risks.
- Supported Business Continuity and Disaster Recovery assessments.
- Facilitated stakeholder workshops ensuring alignment and smooth delivery.
- Enhanced overall service stability through modernization initiatives.

NETWORK ENGINEER – ICAD | Feb 2013 – Feb 2015

- Implemented enterprise networking solutions supporting aviation operational systems.
- Configured routing, switching, and firewall environments for secure operations.
- Supported deployment of surveillance and operational platforms.
- Performed troubleshooting and root cause analysis for complex incidents.
- Monitored infrastructure performance ensuring high availability.
- Worked with vendors during system integration activities.
- Executed infrastructure upgrades minimizing operational disruption.
- Maintained configuration documentation and governance standards.
- Supported capacity planning and performance optimization.
- Ensured operational continuity through proactive monitoring.

PROJECTS ENGINEER – Saudi Binladin Group | Sep 2011 – Feb 2013

- Delivered smart building and BMS solutions across major facilities.
- Led commissioning and system acceptance activities.
- Coordinated HVAC, electrical, and automation integrations.
- Supported planning and execution of engineering projects.
- Prepared technical documentation and reports.
- Worked with multidisciplinary engineering teams.
- Ensured compliance with quality and safety requirements.
- Supported procurement evaluation and vendor coordination.

- Managed stakeholder communication throughout delivery.
- Contributed to successful project handover and operational readiness.

KEY ACHIEVEMENTS

- Delivered and managed technology and infrastructure programs exceeding 50M+ SAR budgets.
- Successfully established enterprise IT-PMO improving governance and delivery maturity.
- Supported and coached team members in developing project management skills, which helped several colleagues successfully obtain **PMP certification** and grow into stronger project leaders.
- Managed 20+ infrastructure and cybersecurity projects in mission-critical environments.
- Delivered enterprise Data Center and Disaster Recovery implementations.
- Led Digital Transformation initiatives including GIS, AI, and enterprise platforms.
- Implemented IT/OT segmentation improving cybersecurity posture.
- Delivered infrastructure migrations with zero operational downtime.
- Built executive Power BI dashboards improving portfolio visibility.
- Led Agile software delivery projects including ERP, eCommerce, and mobile platforms.

CORE PROJECTS DELIVERED

- | | |
|--|--|
| • Enterprise IT-PMO Establishment – NCVC | • NWC Disaster Recovery Data Center |
| • Digital Transformation Portfolio (GIS & AI Programs) | • NWC West Region Network Upgrade |
| • Riyadh Airports Enterprise Network Modernization | • Operational Technology Network Segmentation – NWC |
| • AF8 Data Center Deployment – Riyadh Airports | • New KAIA Airport Network Implementation |
| • KKIA Operational Network Enhancement | • Smart UPS Deployment for Critical Network Switches |
| • NWC Primary Data Center Deployment | |

CERTIFICATIONS

- CISSP – Certified Information Systems Security Professional (ISC2) _ | Certification number 2851874
- GRCP_ Certified GRC professional _OCEG_| Certification number 179077139
- GRCA_ Certified GRC professional _OCEG_| Certification number 179224276
- PMP – Project Management Professional (PMI) _ Certification number 2558722
- PMI-ACP – Agile Certified Practitioner (PMI) _ Certification number 3369928
- CCNP – Cisco Certified Network Professional
- KNX – Smart Home Electrical Engineering

TRAINING

- | | |
|---|--|
| • Agile Certified Practitioner – Udemy, June 2022 | • Python for Network Engineers – Udemy, 2019 |
| • Power BI – Udemy, June 2022 | • Web Development Udemy, 2019 |
| • Palo Alto Firewall – ABAD Institute, April 2022 | • Certified Information Systems Security Professional (CISSP) – 2025 |
| • Python Programming MISK Academy, Jan 2020 | • Generative AI Overview for Project Managers, 2025 |
